

# Zone Perfect

Ultra-Concentrated Carpet Prespray

## Zone Perfect

Bridgepoint Systems has improved their leading carpet pre-spray – ZonePerfect. The new formula makes the best traffic lane cleaner in the industry even better, and it is VOC compliant in all 50 states. It has special thickening agents which allow it to contain 30% more active ingredients than other pre-sprays. This special blend of soil-blasting, grease-cutting ingredients delivers and unbeatable cleaning punch that out cleans competitive products – at a safer pH of 9.5.

ZonePerfect simply has better ingredients, and better ingredients equals better performance. This version of ZonePerfect contains detergent polymers that provide detergent functionality while at the same time imparting anti-resoiling characteristics. It also contains dispersant polymers that provide a powerful soil dispersant and do not attract residues. Its amphoteric surfactant is an excellent emulsifier and wetting agent which helps lubricate fibers to protect them during the agitation phase of cleaning. The VOC compliant, green rated solvents dissolve oil and grease based soiling even at extremely high dilution rates of 1:32-64. The alkaline phosphate softens water, neutralizes acidic soils, and promotes free rinsing of the emulsified glob of soils and oils. They also help dissolve oil based soiling and prevent that soiling from re-attaching to the fiber. Finally, stabilizing additives hold the ultra-concentrated solids level of the formulation in suspension.

Part Number: CC03GL

9.5 RTU pH

Dilution Ratio: 4 oz./gal.

Contents: One U.S. Gallon (3.79 Litres)

Available in Gallons and 4 x 1 gallon cases

- The perfect prespray for all types of synthetic carpets
- Non-resoiling formula keeps the carpet cleaner longer
- Soil-blasting, grease cutting ingredients with an unbeatable cleaning punch that out-cleans competitive products
- Ultra-concentrated, 1:32
- VOC compliant in all 50 states
- Better ingredients = Better Performance

### DIRECTIONS

Shake well before using. To be used as a prespray for soiled carpets. Product should be extracted after use. It can be used on all synthetic carpets, including 5th generation nylon. Zone Perfect is designed for use in the Hydro-Force sprayer and other types of pump sprayers.

#### For use with Hydro-Force Sprayer:

For use with regular 1-8 Hydro-Force, dilute 1 part Zone Perfect to 3 parts water. Do not allow carpet to dry before extraction.

#### For use with Pump/Electric Sprayers:

Dilute 4 oz. Zone Perfect to 1 gallon hot water (1 to 32). For exceptionally heavy soil, dilute 6 ounces per gallon (1-24). Spray until carpet is damp. Extract with your normal process. Do not allow carpet to dry before extraction.
