# Dustless<sup>®</sup> OSHA Silica Rule Compliance Guide

Many jobs create hazardous silica dust. For those jobs, **OSHA** requires two items:

- ✓ A commercially available dust collection shroud attached to the worker's tool
- ✓ A 99% efficient dust collection system that includes a filter cleaning mechanism

Dustless Technologies makes the **most universal** and **most cost-effective** OSHA-compliant dust collection systems on the market. No need to replace your existing tools!

## Dustless offers OSHA-compliant systems for many tools and jobs

HEPA Wet+Dry  
DustlessVac<sup>®</sup>  
(Model D1606)  
130 CFM

- a) DustBuddie<sup>®</sup> for grinding with angle grinders  
2 sizes available - 5" and 7"
  - b) CutBuddie<sup>®</sup> for cutting and tuck-pointing  
with angle grinders

3 sizes available - 1 3/8", 4", and 8"
  - d) DustBuddie for 7-1/4" worm drive circular saws
- ...and more!**

## OSHA's HEPA Requirements

OSHA requires a High-Efficiency Particulate Air (HEPA) vacuum for **housekeeping and vacuuming drill holes**. It is advised that each construction crew has at least one HEPA vacuum on site, such as the HEPA Wet+Dry DustlessVac (D1606).

**NOTE:** For some jobs, OSHA requires personal respiratory protection of APF 10 - 25 (regardless of dust control systems).
