

VIPER RESUSCITATE

Restorative Bath and Shower Cleaner

VIPER RESUSCITATE

Viper Resuscitate is a professional strength, acidic product specifically formulated for use in bathrooms and shower stalls, or on countertops that do not respond to other cleaning agents. It cleans away hard water spots and deposits, grout haze, soap scum, and efflorescence. It renews the appearance of ceramic tile, porcelain tile, grout, granite, slate, and sandstone. It emits fewer vapors than typical acid cleaners especially when used with a foaming sprayer. Viper Resuscitate is used when all other cleaners have failed and is a safer alternative than other aggressive acids.

- Restorative organic acid cleaner.
- Cleans away hard water spots, soap scum and efflorescence.
- Safer than other aggressive acids while still extremely effective.
- Do not use on acid-sensitive surfaces like marble, travertine, or limestone etc.
- Contains corrosion inhibitors to help protect metal from overspray along with appropriate masking.

Part Number: 2691-0632 | RTU ph - 1.0 - 1.5 | Contents: One U.S. Gallon (3.79 Litres) | Available in Gallons and 4 x 1 gallon cases

DIRECTIONS

DILUTE

For normal soiling, mix eight ounces of solution per gallon of warm or hot water (1:16) into a professional spray applicator. For heavy soiling, mix one part solution with one part of warm or hot water (1:1) into a professional spray applicator. A foaming sprayer is highly recommended.

PRE-SPRAY

Apply mixed solution with sprayer evenly and liberally across surface to be cleaned. If preferred, you can apply mixed solution with a damp sponge or towel. Agitate with a brush as needed. Brush agitation assists the breakdown of the deposits.

EXTRACT

For best results, extract cleaning solution using Viper Neutral Stone Cleaner with a rotary agitation surface tool such as a Hydro-Force SX-7.

VIPER STONE CLEANERS & SEALERS

VIPER STONE PERFECT

Viper Stone Perfect is a high powered cleaning agent for restoration cleaning of natural stone such as marble, granite, limestone, travertine, slate and sandstone.

When used as directed, Viper Stone Perfect is safe to use on stone and will not damage surfaces, as it powers its way through grease, oil, spills, and soiling.

Viper Stone Perfect is used as a prespray on stone and grout to loosen and emulsify soils and stains, and to facilitate soil removal. Viper Stone Perfect is powerful, yet sensitive enough for fine stone surfaces with its hard-hitting blend of builders, solvents, and surfactants. It is also ideally suited for cleaning stone that has fire and smoke damage.

- High powered restorative cleaning agent for heavily soiled stone surfaces.
- Powers its way through caked-on grease and oxidized oils.
- When used as directed, will not harm sensitive stone surfaces.
- Contains no chelating agents that could attack the minerals in natural stone.

Part # 2690-0631

VIPER NEUTRAL STONE CLEANER

Viper Neutral Stone Cleaner is the perfect solution for maintenance cleaning of stone and tile floors, countertops and more. It is formulated to be effective and safe on virtually all stone surfaces. It cleans up everyday messes, soiling, and spills with a gentle, yet effective neutral formula. Unlike most floor cleaning agents, Viper Neutral Stone Cleaner has no chelating agents which can alter the color by attacking the minerals and may require polishing to correct.

Viper Neutral Stone Cleaner can be used on natural stone such as marble, granite, limestone, travertine, slate, sandstone, and flagstone. It is also perfect for maintenance cleaning of ceramic and porcelain tile and grout. Whether you are cleaning a stone floor, countertop, fireplace mantle, or shower, Viper Neutral Stone Cleaner is your perfect choice.

- A perfect neutral pre-spray and rinse for stone. It is also suitable for tile and grout not needing restorative cleaning.
- Contains no water conditioning or chelating agents.
- Ideal for maintenance cleaning.

Part # 2692-0633

VIPER PRESTIGE - WATER-BASED IMPREGNATING SEALER & SOLVENT-BASED IMPREGNATING SEALER

Viper Prestige is an impregnating sealer that slows down the penetration of soils, oils and stains, yet is vapor permeable to allow moisture in the substrate to evaporate. Prestige is available in water or solvent formulations to suit any need.

- Fluorochemical technology provides maximum protection against spots and spills.
- Preserves the natural look of stone and can be applied to interior surfaces.
- Protects without affecting slip resistance.
- Ideal sealer for prestigious stones like marble, granite, limestone, and travertine.
